

# Keeping Me Waiting Lyrics/Chords

Writer: Bobby Noble

Album: *naked*

## A few notes:

This lyrics/chords chart is to give you a *basic idea* of the words and harmonic outline. There's a lot going on in the studio recording that is not expressed below. There are bass riffs, passing tones, different chord voicings, etc in this song that are great but aren't necessarily critical to your interpretation.

Use the chart while listening to the song to get the complete picture.

If you're using this chart for my *naked cover contest* remember to spice it up with your own take on things (rhythm, harmony, melody, phrasing, etc)- **there are no rules limiting your creativity** :D <3
